SURPLUS LIST

of Choice Alpines and Perennials for Lining Out or Potting up for Fall 1940. Rooted Cuttings, Seedlings and Divisions unless otherwise noted.

25 at 100 rate

In order that you may obtain the best results with these young plants, we suggest that most of them be potted and wintered in cold frames covered with glass sashes, then sell them out of pots in the spring or plant them out in the field or beds. If you do not wish to pot them they can be planted directly in the soil in frames and covered with sashes. In Southern and Western states where the winters are mild, this might not be necessary.

BULBS

For Fall Planting

Due to the situation in Europe the chances are very slim of getting any bulbs from Holland. However, we shall have a few English grown Tulips and some American grown Narcissus.

We'll be glad to quote you prices on varieties we can supply.

WE INVITE YOU TO VISIT OUR DISPLAY GARDENS

The Gardens are located on U. S. Route 140, at "Fairground Hill," on the southern edge of Westminster. We are only 28 miles from the city of Baltimore and 22 miles from historic Gettysburg, Penna.
